CCLS Facilitator, 2007-

How will you continue to integrate an aspect of GK-12 and your partnership with graduate students into your teaching, philosophy, etc.?

I think I will integrate technology in a more consistent manner in my classroom.

How has the GK-12 experience changed you, and how has your participation changes the GK-12 project?

As a new GK-12 participant this year, I find it to be a very well-run and beneficial experience so far. I am impressed with the skills and commitment of my fellow and am benefitting from her new ideas for my classroom.
